In-Class Exercise 7: Promising to Fetch

Write a function that uses fetch() to make AJAX requests and process data

- Download

  - https://github.com/jasmine/jasmine/releases (standalone v5.3.0)

  - https://www.clear.rice.edu/comp431/sample/jasmine-inclass-fetch.spec.js

  - https://www.clear.rice.edu/comp431/sample/inclass-fetch.js

- Add jasmine-inclass-fetch.spec.js to the Jasmine spec directory

- Add inclass-fetch.js to the Jasmine src directory

- Modify SpecRunner.html to include these 2 files (remove current)

- Open SpecRunner.html in your browser

- Fix the *countWords(url)* and *getLastLargest(url)* failures (hint: post body)

  - list of posts: https://jsonplaceholder.typicode.com/posts

Submit inclass-fetch.js to IC7 in Canvas
